

Meet Metronet, the leader in business-class voice and data communications services.

Metronet builds and operates 100% fiber networks that power Metronet Business customers with ultra-fast, reliable internet and voice services. More than 300 communities across 19 states have access to Metronet fiber, with more added each month.

Metronet is owned by a joint venture of T-Mobile, America's 5G leader and fastest growing internet provider, and KKR, the global investment firm.

YOUR TELECOMMUNICATIONS PARTNER

Symmetrical Speeds

- Fast uploads AND downloads

- Proactive monitoring & 24/7 support
- Scalable, secure, and reliable solutions

Fiber Internet

- Fast upload and download speeds
- High-speed access to all cloud applications
- Dedicated connection for secure data transfer

THE POWER OF 100% FIBER

Speed

- Fiber is faster than basic cable using light to transfer data
- Fiber delivers the same upload AND download speeds for seamless video conferencing, fast file uploads, and smooth cloud-based operations.

Security

- Fiber is a powerful way to increase protection against cyber-crime
- Fiber does not radiate signals that can be tapped like cable making it more secure

Reliability

- Fiber is stronger than copper
- Fiber is weatherproof immunizing your network against interference with data transfer

Future Proof

- Fiber provides guaranteed up time
- Fiber is scalable and will grow with your business
- Fiber can support applications as they move to the cloud

Quality

- Fiber optic technology is the single fastest method of delivering high-speed Internet access
- Fiber signal strength does not degrade after 60 miles like cable
- Fiber internet will not get slower the farther your business is from another location

A RECOGNIZED INDUSTRY LEADER

"Metronet's pricing beat the other carriers by a long shot ... Metronet was so much lower than the competitors, it wasn't even fair."

- St. Charles Toyota

"Using Metronet's hosted PBX solution meant we didn't have to deal with equipment, change our network, or add any equipment to it. It was painless to vastly upgrade our system."

- Kluber Architects + Engineers

"Metronet surpassed our incumbent Ethernet Services provider in every way, even coming in with the lowest price point and beating the others hands down."

- West Aurora School District 129
