

CORE COMPETENCIES

Data Modernization & Architecture

- Legacy database migration (mainframe, on-premise to cloud)
- Data lake and data warehouse design and implementation
- ETL/ELT pipeline development and optimization
- Master data management and enterprise data governance
- Data quality programs and metadata management

Secure Cloud Transformation

- AWS and Azure cloud migration strategy and execution
- FedRAMP compliance architecture and documentation
- Infrastructure-as-Code (Terraform, CloudFormation)
- DevSecOps pipeline implementation and CI/CD
- Cloud cost optimization and FinOps

Analytics & AI/ML Solutions

- Predictive modeling and operational analytics
- NLP and LLM integration for document analysis
- AI governance frameworks and model validation
- HIPAA-compliant analytics and reporting platforms
- AI Center of Excellence design and standup

Healthcare Data & Enterprise Architecture

- CMS data systems and Medicare/Medicaid analytics
- Clinical data integration and interoperability (HL7, FHIR)
- Enterprise architecture (TOGAF/Zachman)
- Technology roadmap, portfolio mgmt, and IT governance

PAST PERFORMANCE

Federal Healthcare Data Infrastructure & AI Modernization

Federal Research Org. | HHS/CMS | HIPAA, FedRAMP, FISMA

- Contributed to renewal of \$175M federal contract
- Founded AI Center of Excellence — 20+ production deployments
- Delivered \$2M+ in operational savings through automation
- Modernized legacy infrastructure for cloud-ready analytics

Enterprise Pharmacy & Healthcare Data Integration

Fortune 20 Retail Healthcare Org. | PBM, Retail Health

- Designed PBM data architecture for high-volume processing
- Established enterprise data governance across divisions
- Led data quality improvements reducing processing errors
- Managed distributed systems serving multiple business units

Global Supply Chain Technology Operations

Multinational Supply Chain & Food Services Org.

- Directed technology for complex global supply chain
- Delivered analytics improving visibility and decisions
- Led system modernization across international operations
- Managed technology portfolio spanning multiple countries

Enterprise Technology Consulting & Architecture

Fortune 500 Orgs. | Retail, Healthcare, Technology

- Enterprise architecture assessments and technology roadmaps
- Integration solutions for multi-platform environments
- Data strategy, cloud readiness, and app modernization

KEY DIFFERENTIATORS

AI Center of Excellence

Founded and led AI CoE with 20+ production deployments in regulated federal environments. Governance frameworks for responsible AI.

25+ Years Enterprise Leadership

Deep data architecture expertise spanning Fortune 50 healthcare, retail, and global supply chain organizations.

Federal Health Domain Expert

CMS/Medicare data ecosystems, HIPAA compliance, and FedRAMP environments — managed as daily operational realities.

LEADERSHIP

Vivek Anand

President & CEO

MBA, University of Chicago Booth | PMP Certified | 25+ Years Technology Leadership | 10+ Years Federal Programs

Former Director of IT at a leading federal research organization supporting HHS/CMS programs. Founded AI Center of Excellence driving 20+ production AI implementations. Enterprise data architecture leadership at Fortune 50 organizations across pharmacy benefit management, retail health, and global supply chain operations. Deep fluency in Python, SQL, AWS/Azure, and modern AI/ML frameworks.

COMPANY DATA

Legal Name: Ample Business Services LLC

DBA: ABS Federal

Business Type: Small Business / SDB (Self-Certified)

UEI: [Pending SAM.gov Registration]

CAGE Code: [Pending Assignment]

Primary NAICS: 541512 — Computer Systems Design Services

Additional NAICS: 541511 | 541519 | 518210 | 541611 | 541715 | 511210

Location: Northbrook, IL 60062
